INDEX TO VOLUME 11, FOREST SCIENCE, 1965

Art.—article; rev.—review; art. (rev.)—review of article or book by.

Authors are indicated by capitals.

Advances in botanical research. rev. 346
Agrilus horni, aspen root girdler. Identity and biology of an. art. 33
ANDERSON, GERALD W. art. 139
Annual activity of intermediary roots of the Aleppo pine. The. art. 291
ANUTSCHIN, N. P. art. (rev) 449
Aphids feeding on mycorrhizae of Douglas-fir. art. 410
Artificial defoliation of pine on subsequent shoot and needle growth. Effects of. art. 90
Aspen, comparison of tree growth and callus production in. art. 353
Aspen, quaking. Colchicine treatment of newly formed embryos of. art. 456
Aspen root girdler, agrilus horni. Identity and biology of an. art. 33
β-inhibitor on histogensis of balsam fir bark cultured in vitro. The effect of. art. 271

BAKER, WHITEFORD L. art. (rev) 367
Balsam fir bark cultured in vitro. The Effect of β-inhibitor on histogensis of. art. 271
Balsam fir stands, immature. Dry-matter production in. For. Sci. Monog. 9 (a separate)
Balsam woolly aphid, effects of the. Upon wood anatomy of some western true firs. art. 181
BARNARD, JOSEPH E. art. 59
BARNES, ROBERT L. art. (rev) 346
BARNETT, JAMES art. 341
BARR, G. R. art. 327
BASKERVILLE, G. L. For. Sci. Monog. 9 (a separate)
BEEKMAN, W. BOERHAVE rev. 326
Beneficial insects. rev. 215
BENTLEY, WILLIAM R. art. 76
BERBEE, J. G. art. 204
Birch, yellow. Germination and seedling growth. art. 386
Birch, yellow, in Wisconsin. Species association and stand structure of. art. 369
BLAIS, J. R. art. 130
BONGA, J. M. art. 271
Boron deficiency in pinus radiata and P. pinaster. art. 425
Branchlets. Number of, on red pine in young plantations art. 42
Budworm outbreaks, spruce. In the past three centuries in the Laurentide Park, Quebec. art. 130

Callus production in aspen. Comparison of tree growth and. art. 353
Canker, bole, of sugar maple. Low temperatures and. art. 59
CARTER, MASON C. art. 216
CASSISTA, JON rev. 450
CLARK, J. art. 271
Colchicine treatment of newly formed embryos of quaking aspen. art. 456
Colletotrichum shoot blight of poplars. art. 204
Common trees of Puerto Rico and the Virgin Islands. rev. 368
Comparison of tree growth and callus production in aspen. art. 353
Computer technique for the study of forest sampling methods. A. art. 99
Continuous forest inventory, partial replacement of samples and multiple regression. art. 480
CORE, HAROLD A. art. (rev) 368
COTTAM, G. art. 369
CRITCHFIELD, WILLIAM B. art. 460
CUNIA, T. art. 115, 480

Cycloheximide and oligomycin in northern pin oaks. Translocation and persistence of. art. 353

Decline and mortality of red and scarlet oaks. art. 2
DEGROOT, RODNEY C. art. 176
Defoliation, artificial, effects of. On subsequent shoot and needle growth. art. 90
Dendrometrie. rev. 41
Device for implanting temperature sensors in tree stems. A. art. 170
Diagnosing potassium deficiency in American elm, silver maple, Russian olive, hackberry, and box elder. art. 347
DICKINSON, FRED E. art. (rev) 326
DICKSON, RICHARD E. art. 299
Dimensional relationships and form determinants of trees. Some art. 50
Disease in patchily-infected forest stands. The spread of. art. 18
DOERKSEN, ALLAN H. art. 181
DOERNER, KARL, JR. art. 50
Douglas-fir. Aphids feeding on micorrhizae of. art. 410
Douglas-fir, in a controlled environment. Growth of ponderosa pine and. rev. 221
Douglas-fir. Inbreeding and single crossing. art. 279
Douglas-fir seed viability during cone storage, loss of. art. 463
Douglas-fir. Tuberculate mycorrhizae of. art. 27
Dry-matter production in immature balsam fir stands. For. Sci. Monog. 9 (a separate)
DUFFIELD, JOHN W. art. (rev.) 17, rev. 462
Dwarfmistletoe I. seed dispersal, interception, and movement. Life tables for two special of. art. 142

Early verification of a hybrid between Noble and California red firs. art. 460
Effects of the balsam woolly aphid upon wood anatomy of some western true firs. art. 181
EINSPAHR, DEAN W. art. 360, 456
Environment and seed source on mineral content of jack pine seedlings. Effect of. art. 393
Erection of a leaning eastern hemlock tree. art. 364
Evaluation of an economical instrument shelter for microclimatological studies. art. 434
Examination of a Pinus radiata phosphate fertilizer trial fifteen years after treatment. An. art. 315

Fertilizer trial fifteen years after treatment. An examination of a Pinus radiata phosphate. art. 315
Financial maturity: A theoretical review. art. 76
Firs, California red. Early verification of a hybrid between Noble and. art. 460
Firs, western true. Effects of the balsam woolly aphid upon wood anatomy of some. art. 181
FISHER, JOSEPH L. rev. 222
Fomes pini on pine wood extract media. Germination of basidiospores of. art. 176
Forest inventory. rev. 314
Forest mensuration. rev. 449
Forestry research—a world directory of forest and forest products research institutions. rev. 17
Form determinants of trees. Some dimensional relationships of. art. 50
Form, stem. Of young larix as influenced by wind and pruning. art. 412
Four water regimes upon the growth of four bottomland tree species. The effects of. art. 299
FOWLER, D. P. art. 55
FRANKLIN, JERRY F. art. 460
FRENCH, DAVID W. art. 139

Gamma ray attenuation by loblolly pine wood: An investigation of ingegral counting. art. 341
GATHERUM, GORDON E. art. 189
Genetics of forest tree improvement. rev. 168
GENTLE, W. art. 315
Germination and seedling growth. Yellow birch. art. 386
Germination of basidiospores of fomes pini on pine wood extract media. art. 176
Grafting dwarfmistletoe-infected ponderosa pine bark tissues. Patch. art. 436
Growth of four bottomland tree species. The effects of four water regimes upon the. art. 299
Growth of ponderosa pine and Douglas-fir in a controlled environment. rev. 221

HACSKAYLO, EDWARD art. 401
HAIR, DWIGHT art. (rev) 222
HALL, GAVIN S. art. 438
HALLER, K. E. rev. 314
HAWKSWORTH, FRANK G. art. 142
Hemlock, eastern. Erection of a leaning tree. art. 364
HERRINGTON, L. art. 170
Histogensis of balsam fir bark cultured in vitro. The effect of β-inhibitor on. art. 271
HOSLEY, NEIL W. art. 299
HOSNER, JOHN F. art. 299
HOUGH, WALTER A. art. 223,341
HUMPHREYS, F. R. art. 315
Hybrids, pine, in Mississippi. Natural and controlled loblolly x shortleaf. art. 306
Hydrological role of forests. The. rev. 75

Identity and biology of an aspen root girdler, agrilus horni. art. 33
Inbreeding and single crossing in Douglas-fir. art. 279
Inhibition of black spruce primary roots by a water-soluble substance in Kalmia angustifolia. art. 473
Instrument shelter for microclimatological studies. Evaluation of an. art. 434
International review of forestry research. rev. 462
Inventory, forest, continuous. Partial replacement of samples and multiple regression. art. 480
Inventory sample. Some theory in reliability of volume estimates in a forest. art. 115

J-shaped probability distribution. The. art. 405
JENSEN, KEITH F. art. 189
JOHNSON, P. L. art. 434

Kalmia angustifolia. Inhibition of black spruce primary roots by a water-soluble substance in. art. 473
KNIGHT, FRED B. art 33, art. (rev) 215
KOCH, PETER. art. (rev) 88
KOZLOWSKI, T. T. art. 386, 369, art. (rev.) 450
KÜCHLER, A. W. rev. 325
KULMAN, H. M. art. 90
KUNTZ, JAMES E. art. 353

LAMBERT, MARCIA J. art. 315
Larix, young, stem form of. As influenced by wind and pruning. art. 412
LARSEN, H. S. art. 216
LARSON, PHILIP R. art. 412
LEAK, WILLIAM B. art. 405
LESHEM, B. art. 291
LESTER, D. H. art. 327
LIBBY, WILLIAM J. art. (rev) 168
Life tables for two species of dwarfmistletoe I. seed dispersal, interception, and movement. art. 142
LINDSEY, ALTON A. art. 258
Linear programming. rev. 437
LITTLE, ELBERT L., JR. rev. 368
Loblolly pine wood: An investigation of integral counting. Gamma ray attenuation by. art. 341
Loblolly x shortleaf pine hybrids in Mississippi. Natural and controlled. art. 306
LOETSCH, F. rev. 314
Longleaf pine-turkey oak stand. Root extension of individual trees in surface soils of a natural. art. 223
Loss of Douglas-fir seed viability during cone storage. art. 463
Low temperatures and bole canker of sugar maple. art. 59

Maple, sugar. Low temperatures and bole canker of. art. 59
MARKS, G. C. art. 204
MARTINELLI, M., JR., art. (rev) 89
MARX, DONALD H. art. 66
MATHES, MARTIN C. art. 360
McCOMB, A. L. art. (rev) 75
McCormick, M. L. art. 223
MERGEN, F. art. 306, 393
Meristems, growth and development in woody plants. rev. 264
Micro-organisms, mutual effects in vitro of. Isolated from tree seedlings, nursery soil, and forests. art. 160
MIKOLA, PIESTA. art. (rev) 462
MILLER, WILLIAM E. art. 42
Mineral content of jack pine seedlins Effect of environment and seed soug. on. art. rce 393
MITCHELL, RUSSELL G. art. 181
MOLCHANOV, A. A. art. 75
Mortality, decline and. Of red and scarlet oaks. art. 2

Mutual effects in vitro of micro-organisms isolated from tree seedlings, nursery soil, and forest. art. 160
Mycorrhiza-infection trials with polyporus tomentosus on spruce and pine. art. 265
Mycorrhizae of Douglas-fir. Aphids feeding on. art. 410
Mycorrhizae of Douglas-fir. Tuberculate. art. 27
Mycorrhizae of Virginia Pine. Telephora terrestris and. art. 401
Mycorrhizal formation of slash pine in aseptic culture. Effect of pH on. art 66

Natural and controlled loblolly x shortleaf pine hybrids in Mississippi. art. 306
Natural resources of the world. rev. 222
Natural self-fertilization in three jack pines and its implications in seed orchard management. art. 55
NORD, J. C. art 33
Number of branchlets on red pine in young planations. art. 42

Oaks, red and scarlet. Decline and mortality of. art. 2
Old-growth forest in Indiana. Size class structure of. art. 258
Oligomycin and cycloheximide in northern pine oaks. Translocation and persistence of. art. 353
O'NEAL, DENNY art. 341
O'REGAN, W. G. art. 99
ORR-EWING, A. L. art. 279
OSBORN, KATHERINE H. art. 244

P. Pinaster and pinus radiata. Boron deficiency in. art. 425
PALLEY, MARSHALL N. art. 99
PARDE, JEAN rev. 41
Patch grafting dwarfmistletoe-infected ponderosa pine bark tissues. art. 436
PATRONE, GENEROSO art. (rev) 437
PERALA, DONALD A. art. 437
PERRY, THOMAS O. art. (rev) 264
Persistence and effect of TMTD on soil respiration and nitrification in two nursery soils. art. 152
PETERSON, E. B. art. 473
pH on mycorrhizal formation of slash pine in aseptic culture. Effect of. art. 66
PHELPS, WILLIAM R. art. 353
Phosphate fertilizer trial fifteen years after treatment. An examination of a Pinus radiata. art. 315
PIELOU, E. C. art. 18
Pine, Aleppo. The annual activity of intermediary roots of the. art. 291
Pine, eastern white. Variation in some wood properties of. art. 451
Pine, effects of artificial defoliation of. On subsequent shoot and needle growth. art. 90
Pine, jack, seedlings. Effect of envirnoment and seed source on mineral content of. art. 393
Pine, loblolly, xylem sap composition. Soil nutrients and. art. 216
Pine, ponderosa, bark tissues. Patch grafting dwarfmistletoe-infected. art. 436
Pine, ponderosa, growth of. And Douglas-fir in a controlled environment. rev. 221
Pine, red, in young plantations. Number of branchlets on. art. 42
Pine, red. Provenance and progeny tests in. art. 327
Pine, red. Wood increment and crown distribution relationships in. art. 438
Pine seedlings, Scotch. Effects of temperature, photoperiod, and provenance on growth and development of. art. 189
Pine, slash, in aseptic culture. Effect of pH on mycorrhizal formation of. art. 66
Pine, Virginia. Thelephora terrestris and mycorrhizae of. art. 401
Pines, Jack, three, Natural self-fertilization in, and its implications in seed orchard management. art. 55
Pinus radiata and p. pinaster. Boron deficiency in. art. 425
Pinus radiata phosphate fertilizer trial fifteen years after treatment. An examination of a. art. 315
Polyporus tomentosus on spruce and pine. Mycorrhiza-infection trials with. art. 265
Poplars, colletotrichum shoot blight of. art. 204
Potassium deficiency. Diagnosing in American elm, silver maple, Russian olive, hackberry, and box elder. art. 347
Potential natural vegetation of the conterminous United States. rev. 325
POTTER, NEAL rev. 222
PRESTON, R. D. rev. 346
Probability distribution. The J-shaped. art. 405

PRODAN, MICHAEL rev. 449
Progeny Tests in red pine. Provenance and. art. 327
Provenance and progeny tests in red pine. art. 327

RADWAN, M. A. art. 152
Recent development of mountain slopes in Karkevagge and surroundings, northern Scandinavia. rev. 89
REDISKE, J. H. rev. 221, art. 463
RIKER, A. J. art. 204
ROE, EUGENE I. art. (rev) 325
ROMBERGER, JOHN A. rev. 264, art. (rev) 462
Root extension of individual trees in surface soils of a natural longleaf pine-turkey oak stand. art. 223
Roots. The annual activity of intermediary roots of the aleppo pine. art. 291
RUEHLE, JOHN L. art. (rev) 383
Rust, western gall, in the Lake States. art. 139

SALISBURY, P. J. art. 160
Sampling methods. A computer technique for the study of forest. art. 99
SCHMELZ, DAMIAN V. art. 258
Seed orchard management. Natural self fertilization in three jack pines and its implications in. art. 55
Seed viability during cone storage. Loss of Douglas-fir. art. 463
Sensors in tree stems. A device for implanting temperature. art. 170
SHEA, KEITH R. art. 436, 460
SILEN, ROY R. art. 463
Single crossing in Douglas-fir. Inbreeding and. art. 279
Size-class structure of old-growth forests in Indiana. art. 258
SNYDER, E. B. art. 306
Soil nutrients and loblolly pine xylem sap composition. art. 216
Some theory on reliability of volume estimates in a forest inventory sample. art. 115
Species association and stand structure of yellow birch in Wisconsin. art. 369
Spread of disease in patchily-infected forest stands. The. art. 18
Spruce, black, Inhibition of primary roots by a water-soluble substance in Kalmia angustifolia. art. 473
Spruce budworm outbreaks in the past three centuries in the Laurentide Park, Quebec. art. 130
STAIRS, G. R. art. 306
STALEY, JOHN M. art. 2
Stand structure of yellow birch in Wisconsin. Species association and. art. 369
STEINBRENNER, E. C. rev. 221
Stem form of young larix as influenced by wind and pruning. art. 412
STONE, E. L. art. 425
Structure, size-class. Of old-growth forest in Indiana. art. 258
Studies of maple blight. rev. 367
SUCOFF, EDWARD art. 347
SWAN, H. STEWART D. art. (rev) 221
SWAN, LESTER A. rev. 215

TEEGUARDEN, DENNIS E. art. 76
Temperature, photoperiod, and provenance on growth and development of Scotch pine seedlings. Effects of. art. 189
The biology of plant parasitic nematodes. rev. 383
Thelephora terrestris and mycorrhizae of Virginia pine. art. 401
Theses, forestry, accepted by colleges and universities in the United States. art. 244
THOR, E. art. 451
TMTD, persistence and effect of. On soil respiration and nitrification in two nursery soils. art. 152
Translocation and persistence of Cycloheximide and oligomycin in northern pin oaks. art. 353
TRAPPE, JAMES M. art. 27
Tuberculate mycorrhizae of Douglas-fir. art. 27

VAARTAJA, O. art. 160
Variation in some wood properties of eastern white pine. art. 451
VOGEL, T. C. art. 434
VOGT, G. B. art. 33
VORREITER, LEOPOLD rev. 88
Volume estimates in a forest inventory sample. Some theory on reliability of. art. 115

WADSWORTH, FRANK H. rev. 368
WALLACE, H. R. rev. 383

WARD, WILBER W. art. 59
Water metabolism in plants. rev. 450
Water regimes, four. Upon the growth of four bottom land tree species. The effect of art. 299
WEST, WILLIAM I. art. 244
Western gall rust in the Lake States. art. 139
WHITNEY, R. D. art. 265
WILL, G. M. art. 425
Wind and pruning. Stem form of young larix as influenced by. art. 412
WINGET, C. H. art. 369,386
Wood dictionary. rev. 326
Wood increment and crown distribution relationships in red pine. art. 438
Wood machining handbook. rev. 88
Wood properties of eastern white pine. Variation in some. art. 451
WOODS, FRANK W. art. 223,341
WORRALL, JOHN. art. 393
WRIGHT, JONATHAN A. rev. 168

Yellow birch germination and seedling growth. art. 386
YODER, RAY A. art. 244
YOUNG, HAROLD E. art. (rev) 41, 314, rev. 437

ZAK, BRATISLAV. art 66,410
